National Park & Sanctuaries to be visited in Telangana ...

1. Kasu Brahmananda Reddy National Park

The Kasu Brahmananda National Park or KBR Park as it is popularly called is a national park spread over an area of more than 150 hectares. But it is not only the area that it covers that is the most astounding fact of the place but the fact that this place plays a host to about 600 species of plants and trees, over a 100 species of birds and an innumerable count of butterflies and reptiles.

Not only this, the place is blessed with quite a variety of wild animals like jungle cats and wild boars too. One of the famous national parks in Hyderabad, this place is a complete delight for the tourists.

Location: Jubilee Hills, Hyderabad, Telangana

2. Mahavir Hirana Vanasthali National Park

This national park in Hyderabad is basically a deer national park and yet it is spread over an area of 3,758 acres. This place proves to be the largest oxygen supply factory in the city and was the hunting ground of Nizam in the old days.

Named after the great Jain saint, Mahavir, this national park was established to protect the precious heritage of the region. In addition to the deer, the park now has a population of black bucks, water monitors, kingfishers, egrets, herons and porcupines.

Location: Auto Nagar, Hyderabad

3. Mrugavani National Park

A national park near Hyderabad, the Mrugavani National Park is at a distance of about 25kms from Hyderabad. This park was officially declared as a national park in the year 1994 and now it houses about 600 different species of the flora including teak, picus, bamboo, sandal and palas and a wide variety of fauna.

The animals at this national park include Indian hare, forest cat, Indian rat snake, viper snake and about 350 spotted deer.

Location: Moinabad, Ranga Reddy District, Chilkur

4. Pench National Park

Elevated to the status of the national park in the year 1983, the Pench National Park is a national park near Hyderabad.

This distinguished national park is the home to a large number of the endangered species but has the most dominant population of tigers. The other animals at this national park include sambhar, leopards, hyena, wolf, jackal and jungle cat.

Location: Turia Post, Kurai Tehseel, Kurai, MP

5. Tadoba National Park

At a distance of about 412kms from the city of Hyderabad, the Tadoba National Park was established in the year 1955. This national park is noted to be largest and the oldest of the state of Maharashtra and belongs to one of the 50 tiger reserves under Project Tiger.

The total area of this tiger reserve is 1727 sq. km and is a typical southern tropical dry deciduous forest with dense woods. Currently, the national park has a number of other mammals other than the Bengal tiger; these include jungle cats, hyena, gaur, deer, chausingha and crocodiles.

Location: Chandrapur, Maharashtra
